- > A **very international student body and faculty** with a variety of identities, languages and national cultures represented
- > A **tradition of excellence** in the field of European Studies since the IEE is one of the oldest Jean Monnet Centres of Excellence (i.e. since 1963 ) as well as a recognized forum for high-level debates on the EU and its future.

## Teaching methods

Teaching is to combine training through lecture and practice. It notably emphasizes inter-sectoral contacts (e.g. negotiation simulations, field surveys, interactions with practitioners, internships). New technologies and e-learning are an integral component of the teaching provided to the students.

## Programme objectives

This master allows students to acquire a **solid knowledge on EU integration as well as to develop a critical thinking on key European issues**. It also offers opportunities to interact with European affairs practitioners and prepare their start as professionals.

This programme offers a **specialised track "European politics and policies"** that focuses on the functioning of the European Union.

A **second specialised track entitled "EU - ASIA"** offers the possibility to complete a double degree (Master 's level – 120 credits) with the University of Waseda in Japan. Students will spend the first academic year in one country and the second in the other. To complete the training they will write a dissertation in co-supervision (ULB / Waseda). This orientation offers solid knowledge of the historical, political, legal, economic and socio-cultural dimensions of European integration as well as of regional cooperation in Asia.
